

Connection guide for DA-ZMC-GLYN display adapter.

This display adapter connects 3.5" - 5.7" resistive touch glym displays to the ZMC. This adapter is not suitable for capacitive touch displays.

1. Carefully remove the 4.3" Display and the two aluminum display holders
2. Carefully insert the two short flex cables where the 4.3" display was connected
3. Connect max 15cm length display flex cable (Note Pin1 on DA-ZMC-GLYN and on the display)
